

## Photo Information and Consent for Ichthyosis Children's Book

You are invited to send in a photo for our **upcoming children's book on ichthyosis!** This book has been written with input from the board and members of the Foundation for Ichthyosis and Related Skin Types.

It is intended to serve a dual purpose of representation and education. It will provide representation for children with ichthyosis so they see characters in media they can identify with. It will also educate peers and the public about ichthyosis in a child-friendly way, with a goal of reducing bullying and social challenges stemming from a lack of common knowledge about ichthyosis.

We are looking for **photos of children of all ages with ichthyosis** or related skin disorders as a way to show readers with ichthyosis that they are not alone, and as a fun way for children to see themselves in a book! If you are an adult with ichthyosis, we would also love to see photos from your childhood if you would like to participate. Please only send photos where the child with ichthyosis is the only person in the photo (if parents/guardians are in the photo and consent to the sharing of the photo with their image, that is acceptable, but solo photos are strongly preferred).

The book will be available as both a physical copy in English, and an e-book in English, Spanish, French, and Arabic. Photos will not have any names, ages, or other identifiers attached for privacy. We cannot guarantee your photo will be included due to space limitations and submission number, but we will do our best to include as many as possible.

Please email photos to author Andrea Rustad by emailing [andrea.rustad@northwestern.edu](mailto:andrea.rustad@northwestern.edu) with the subject "**Ichthyosis Book Photos**" by **June 21**. If you have any questions about the book or photos, you can also contact [andrea.rustad@northwestern.edu](mailto:andrea.rustad@northwestern.edu).

By signing this consent form and sending in a photo, you indicate your voluntary agreement and consent for us to publish your/your child's photo in the book. You are also acknowledging the content guidelines of our publisher which can be found here: [https://kdp.amazon.com/en\\_US/help/topic/G200672390](https://kdp.amazon.com/en_US/help/topic/G200672390). We will not use any photographs that are submitted that do not meet these content guidelines.
